Subject: Wasp Control Service and Perimeter Power Spray Treatments - Parents

To:

Hi

I am writing to notify you that we have contracted with Smithereen Pest Management Services to spray the exterior of Avoca Center, Avoca West and Marie Murphy for wasps and other ground pests such as ants. Smithereen has notified me that they will be coming out this Saturday to spray. The spray should dry within an hour of application. Please keep this in mind if you are on our grounds on Saturday.

Thanks and have a great day.
