DISCUSSION ITEMS

Superintendent, Kevin Jauch, led the fifth session of the Communication and Engagement Committee. The purpose of the committee is to identify the needs and wants of various constituent groups as applied to communication and engagement and the best method for addressing them.

At this meeting, Co-Chair, Rebecca Goldman, presented the committee with a summary of the data collected from the parent communication survey. The responses were summarized into three different levels of communication; district communication, school/principal communication and teacher communication. Recommendations were provided according to their analysis of the data. Through the work of a group of representatives from the Communication and Engagement Committee, these recommendations have been incorporated into the final recommendations to be presented to the Board.

For the remainder of the meeting, the committee reviewed and edited the final recommendation presentation to be given to the Board on April 27, 2017.

The Communication and Engagement Committee meeting adjourned at 8:23 p.m.
