Hi Beth,

My name is Michael and I'm with NAEES Illinois. We're putting together a contact list of transportation directors throughout the state, and I'm wondering who we can put down for Avoca SD 37. We just need the following info for whoever is in charge of maintaining the fleet of busses there:

Name:

Title:

Cell Phone:

Direct Office Phone:

We reach out to the contacts two times per year to survey chemical and material usage. We then make that data available to engineering students in the state. Our calls last only a few minutes. Please let me know if you have any questions about us.

Thanks so much for the help,

Michael Timothy
