Re: Food Service Update

Nick Saccaro and Rebecca Cohen from Quest will join me at the May COW to give the board an update on how the program is running through April. We will also discuss projections they have prepared for the food service program through the end of this year and for next year. Our discussion will include menu pricing, a new tiered management fee system and our contract renewal. Quest will need several days to get their books closed for April before they can deliver the updated documents. I will forward them to you as soon as I have them. After the discussion at the COW, I will work on updating our contract with Quest. My goal is to have the board approve a new contract with Quest and the pricing for FY 2019 at the May 24, 2018 board meeting.

Please see me if you have any questions.

Thanks
